Application of deficit irrigation to container-grown hardy ornamental nursery stock via overhead irrigation compared to drip irrigation
Agricultural Water Management

Dear Dr. Grant,

I am pleased to tell you that your work has now been accepted for publication in Agricultural Water Management.

Your accepted manuscript will now be transferred to our production department and work will begin on creation of the proof. If we need any additional information to create the proof, we will let you know. If not, you will be contacted again in the next few days with a request to approve the proof and to complete a number of online forms that are required for publication.

I will be your contact person during the production process of the paper towards the final publication on the web (Science Direct) and on paper (in the printed-on-paper issue).

Proofs will be sent to you in due course.

If there were any comments from the Editor and/or Reviewers, they can be found below.

When your paper is published on ScienceDirect, you want to make sure it gets the attention it deserves. To help you get your message across, Elsevier has developed a new, free service called AudioSlides: brief, webcast-style presentations that are shown (publicly available) next to your published article. This format gives you the opportunity to explain your research in your own words and attract interest. You will receive an invitation email to create an AudioSlides presentation shortly. For more information and examples, please visit http://www.elsevier.com/audioslides.

Thank you for submitting your work to this journal.

With kind regards,

J.E. Fernández, Dr.
Agricultural Water Management

Comments from the Editors and Reviewers:

Dear Dr. Olga Mary Grant,

We are pleased to accept your manuscript entitled, "Application of deficit irrigation to container-grown hardy ornamental nursery stock via overhead irrigation, compared to drip irrigation" in its current form for publication in Agricultural Water Management.

Thank you for your contribution. On behalf of the Editors of Agricultural Water Management, we look forward to your continued contributions to the Journal.

Kind regards,

Peter S. Searles
