

ICICT 2018 notification for paper 177

ICICT 2018 <icict2018-0@easychair.org>

Tue 23/01/2018 11:57

To: Alex McCluskey <A.C.McCluskey@greenwich.ac.uk>;

Dear Alex,

Ref: 177

Title: University of Greenwich

Congratulations! On behalf of Program Committee of ICICT 2018 - LONDON, I am happy to inform you that your above mentioned paper has been ACCEPTED for oral presentation in ICICT 2018 and publication in Springer AISC series subject to fulfillment of Guidelines by Springer.

An accepted paper will be published in the Springer proceedings (AISC) only if the final version is accompanied by the payment information (i.e. transaction reference number) subject to quality check as per Springer Guidelines.

Kindly follow the below mentioned guidelines (strictly), related to preparation of final manuscript, copyright transfer form, payment and final submission. The procedure has been detailed as a five step process (I)-(V):

(I) Preparation of CRC (Final Manuscript for Inclusion in Springer Proceedings Book-AISC Series)

You are requested to give a strict attention to the below mentioned points during preparation of final manuscript to avoid any last minute revert backs from the publisher (Springer).

(a) Please format your paper on the Springer template downloading from our conference website <http://icict.co.uk/call-for-papers.php>

(b) Authors should not mention designation etc. in the name and affiliation part below the paper title. You are requested to mention only name, college/organization name, city name and mail ids of all the authors. However, they may mention acknowledgement if necessary (at the end of the paper-prior to references). Kindly mention full name of your institution and city name.

(c) Authors should not give any photo and biography at the end of the paper.

(d) Please address the comments raised by the reviewer(s) as far as practicable. The responsibility lies with the author to incorporate these comments in preparation of your final Camera Ready Copy (CRC) for submission. However, it is worth noting that your paper will not be reviewed again and the submitted CRC (after payment) will be directed to Springer for publication.

(e) In case there is any content matching issue which is communicated to you by review comments, kindly see that you rewrite the paper to avoid any plagiarism issue in future, in no case organizer will be responsible for dropping of paper from Springer Publication at a later stage under such circumstances.

(f) The sole responsibility for correctness of paper lies with the Author(s).

(g) It is mandatory that the submitted manuscript is solely from the authors' own work and not from the work of others (unless explicit permission for the same has been granted). This includes text, figures and tables. Information from published articles must always be cited explicitly. Proper citation is to give the credit to the work that is originally published (not to follow-up work or reviews).

(h) Citations should be given close to the information within the sentences or at the end of the sentence, not after several sentences or near the end of the paragraph. Even when citations are given, exact copying of a whole sentence or paragraphs should be indicated by quotation marks. Furthermore, reuse of part of a published figure or table requires a copyright permission from the publishers that hold the rights. All re-published figures and tables should explicitly indicate the original source.

(i) You have to doubly ensure the format of reference section as well as the mode of citations. All references which are cited must be complete in terms of details like: Year of publication, Vol No, Issue No, pages, name of conference/journal etc. wherever required. [Refer detailed guidelines given in template itself] All references listed in the end (under reference section) must be cited in the body of the text.

(j) Prepare your CRC (manuscript) using Springer template without containing any page numbers or any special headers or footers. From the final CRC formatted, authors should generate the electronic version of CRC in PDF format as well.

(k) You can add or delete authors name in your final paper. Once sent no further alteration will be possible.

(l) By submitting the final paper it is understood that all co-authors have agreed for submission of paper.

(II) Completion/Filling of Copyright Form

(a) Please refer copyright form/Consent to Publish available in the conf web site: <http://icict.co.uk/call-for-papers.php>

(b) Take a printout of this Copyright form and kindly mention/enter the following:

Title of the Book or Conference Name: Third International Congress on Information and Communication Technology (ICICT 2018).

Volume Editor(s): Xin She Yang, Simon Sherratt, Nilanjan Dey, Amit Joshi

Title: Mention your complete paper title

Author(s): Mention the names of all the author(s) in the same order as mentioned in your paper.

Corresponding Author's Name, Address, Affiliation and Email: The author signing the copyright form should mention his/her details: Full name, affiliation, complete postal address and e-mail id under this head.

(c) After making the above entries in the copyright form, it and can be signed by any one author (on the behalf of all the authors), i.e. the corresponding author and mention the date.

(d) Scan this completed and signed copyright form and convert it to pdf. (you can also use the facility of e-signature available in PDF)

(III) Author(s) Registration

(a) Each paper must be registered for the inclusion of the paper in Springer AISC. The paper has to be registered under regular registration.

(b) Extra page length charges would be strictly applicable beyond 8 pages (after converting to Springer format only). You have to make a combined payment in such a case (i.e. Normal Registration + Extra Page Charges). For paper registration and extra page charges kindly check conf web site for details. If by chance extra page charges not included, the paper may not be forwarded to Springer for publication. (Extra Pages can be allowed per paper with Extra payment charge per page)

(c) One author of the paper gets automatically registered along with the paper, other authors if wish to participate in the conference have to separately register them under participant category.

(d) You are requested to attend the conference and present your paper under the oral presentation session. If the registered/corresponding author is unable to attend the conference, the same can be attended and presented on his/her behalf by the co-authors. However, if none of the authors are able to attend the conference then it is mandatory that you should give us prior information and seek permission. Your registered paper will be forwarded for publication in Springer. But, it may be noted that presentation certificate will not be issued in any case.

(e) The paper will not be uploaded to Springer unless we receive the complete payment including Extra Pages.

----- REVIEW 1 -----

PAPER: 177

TITLE: University of Greenwich

AUTHORS: Alex McCluskey and Andrew Adekunle

Overall evaluation: 2 (accept)

----- Overall evaluation -----

Effective paper has been drafted on Constructing an Innovative, Economical and Secure Wireless Mesh Network: Comparing OSPF and RIP.

Elaborate second point "Ping: PC-2-Phone: The PC and phone acting as end devices will connect to sepa-rate WLAN"s, will ping each other 25 packets. The PC that is used will be running Windows 10." Under Section 7.

Comparative analysis with other than OSPFv2 and RIPv2 will be more additional and appropriate.

Recommended for inclusion.

Well Written Paper. Good piece of Work.

Good And effective results have been presented in the paper. Recommended for Inclusion.

The plagiarism rate should not be more than 18% in final version of paper.

Strongly advised to follow the guidelines else the paper may finally be dropped by Springer at a later stage.

Recommended for inclusion, with above comments.
