To: Martin Kinch <M.W.Kinch@greenwich.ac.uk>; Wim JC Melis <Wim.Melis@ieee.org>; Simeon Keates <S.Keates@greenwich.ac.uk>;

Dear Mr. Kinch:

Congratulations - your paper #1570470622 ('The Benefits of Context in Human Communication to Natural Language Processing') has been accepted for presentation in the 2018 The 10th Computer Science and Electronic Engineering (CEEC) (CEEC'18).

The reviews are below or can be found at <http://edas.info/showPaper.php?m=1570470622>.

Please update your paper according to the given comments and resubmit it by the camera-ready deadline (August 6th, 2018). Please make sure that your paper follows the IEEE template provided on our webpage, otherwise the publication of your paper cannot be guaranteed.

Information about the Final Paper Submission can be found here:

<http://ceec.uk/ceec18/author-information/submission-guidlines/>

Please note that in order for your paper to be published, you need to complete the following steps: EDAS submission and Copyright submission. Please check the conference website in the next few days for further updates.

You can follow this link to register for the conference:

<http://ceec.uk/ceec18/author-information/registration/>

Please keep in mind that a paper needs to be registered and presented at the conference by a co-author in order to be published on IEEEExplore.

The deadline for Early Registration is the 13th August 2018 at 23:59 EST.

The deadline to upload the camera-ready (final) manuscript is the 6th August 2018 at 23:59 EST.

Lastly, if you are currently live outside the UK and need to apply for a visa to attend the conference, please register your paper, pay the registration fees and to request an invitation letter for visa purposes, please send the following information to ceec@essex.ac.uk, with the subject: [CEEC'18-VISA LETTER]. Please note that we will provide you with such letters only to registered presenters at the conference (authors only, not to attendees).

1-Full name as in your passport.

2-Passport number.

3-Date of birth.

4-Nationality.

5-Paper number and title.

6-Proof of paid registration to the conference.

For any further queries please refer to the CEEC'18 contact address: ceec@essex.ac.uk

Kind regards,

CEEC 2018 Conference Chairs

===== Review 1 =====

> *** Significance: How significant is the contribution of this paper?

(4)

> *** Originality: How original are the ideas expressed in the paper?

(3)

> *** Relevance: How relevant is the topic of the paper compared to the topics covered in CEEC 2018?

(4)

> *** Presentation: How would you rate the presentation of the paper?

(4)

> *** Formatting: How would you rate the formatting of the paper?

(3)

> *** Abstract & Introduction: Are the Abstract and Introduction adequate?

(4)

> *** Technical Quality: How would you rate the technical quality (theoretical soundness/methodology) of the paper?

(4)

> *** Experimentation: Are the experimental results sufficient and well discussed, with appropriate comparative evaluation?

(3)

> *** Conclusions: How clear are the conclusions and future work?

(3)

> *** References: Are references up-to-date and appropriate?

(4)

> *** Overall rating: How would you rate the paper overall?

(4)

> *** Comments to authors: Please provide some comments to the authors.

1. Rewrite the abstract and conclusion section to be readable.
2. No functional diagram to show the overall aspect.
3. No algorithm or pseudo code found.
4. Simplify the English of the paper.
5. No related existing works section found.
6. A clear analysis as a Discussion section must be presented.

===== Review 2 =====

> *** Significance: How significant is the contribution of this paper?

(4)

> *** Originality: How original are the ideas expressed in the paper?

(3)

> *** Relevance: How relevant is the topic of the paper compared to the topics covered in CEEC 2018?

Very Relevant (5)

> *** Presentation: How would you rate the presentation of the paper?

(4)

> *** Formatting: How would you rate the formatting of the paper?

(4)

> *** Abstract & Introduction: Are the Abstract and Introduction adequate?

(4)

> *** Technical Quality: How would you rate the technical quality (theoretical soundness/methodology) of the paper?

(4)

> *** Experimentation: Are the experimental results sufficient and well discussed, with appropriate comparative evaluation?

(3)

> *** Conclusions: How clear are the conclusions and future work?

(3)

> *** References: Are references up-to-date and appropriate?

(4)

> *** Overall rating: How would you rate the paper overall?

(4)

> *** Comments to authors: Please provide some comments to the authors.

1. The paper is written in difficult English. try to make it simple.
2. The title may be modified to cover the main theme of the paper.
3. A functional diagram is helpful to clarify the paper.
4. A processing algorithm is needed.
5. Related existing work section needed to be written.
6. The result section may be enriched by elaborating further into the analysis.
