

BMS International Composition Competition

BMS International Composition Competition

The Watchtower Gallery, Tweedmouth, Berwick-upon-Tweed, TD15 2HE

Date: 24th October 2021

The Berwick Music Series was held between September and October in 2021. The new music competition had a “North” based theme with high-quality entries from sound artists across the UK and Abroad.

The piece “*Boo Su*” (2021) – 05:10 had its world premiere at this competition, and was a finalist alongside six other artists as part of this submission for the BMS International Composition Competition.

Programme Note:

Boo Su is a fictional cog as part of a system that lives in a futuristic subterranean world of stuttered magnetic rhythms coalescing in a tapestry of harsh brutal noise and architecture. It is where dark cold machines conjure up resistance to bass and unwanted sounds. The DIY glitch compass faces towards a place where aesthetics and operations of failure are embraced - North.
