

Feast or Famine

A question of stasis where the visceral and physical connections and the war of attrition is a thing. The sound tones of Deep Bass and harsh noise beats into submission there is feast or there is famine.

This live electronics performance was performed at Control Voltage 16 at the Colchester Arts Centre, Colchester on the 18th August 2022, and will eventually be presented as a recorded Extended Play (EP). Feast or Famine will also be further investigated as a series of performances.
