### **ABSTRACT**

This chapter outlines the purpose, aims and requirements of the British Association of Sport and Exercise Sciences (BASES) Sport and Exercise Psychology Accreditation Route (SEPAR). The history and location of the qualification within the association are first noted. Details of the qualifications and entry requirements for this pathway, the enrolment process, the qualification journey, a summary of the key competencies which trainees are presented and assessment methods for such competencies are provided. A working illustration of the scheme reflections from a trainee who has taken this pathway including reviewer feedback and activities that then followed are offered. The SEPAR graduate supervisor offers a corresponding insight into their experience of undertaking the qualification and affords tips and guidance for future trainees seeking to join this independent pathway to Health and Care Professions Council Registration.
