## Handbook on Public Policy and Food Security

**Edited by Sheryl L. Hendriks, Professor and Director, Natural Resources Institute, University of Greenwich, UK and Suresh C. Babu, Head of Capacity Strengthening, International Food Policy Research Institute, Washington, US and Extraordinary Professor, Department of Agricultural Economics, Extension and Rural Development, University of Pretoria, South Africa**

**Publication Date:** 2024 **ISBN:** 978 1 83910 543 2 **Extent:** 460 pp

The Handbook on Public Policy and Food Security provides multi-disciplinary insight into food security analysis across the seventeen Sustainable Development Goals (SDGs). As food security is an essential outcome and a part of sustainable and healthy food systems, this Handbook addresses the urgent need to provide a comprehensive overview of the field's current developments.

### **Contents**

The Handbook on Public Policy and Food Security provides multi-disciplinary insights into food security analysis across the Sustainable Development Goals (SDGs). As food security is an essential outcome and a part of sustainable and healthy food systems, this Handbook addresses the urgent need to provide a comprehensive overview of the field's current developments.

Paired chapters focuses on a specific SDG in turn, presenting an overview and using qualitative and quantitative methodological approaches to assess the impact of food security on the attainment of the specific goal, and the evaluation of the impact of the goal on food security. This Handbook brings together experts in the field who advocate for a food systems approach, highlighting how various components of a food system function together to achieve the goal of food security for all. The cross-policy themes covered extend beyond the SDGs, proving relevant for public policy and food security in the foreseeable future.

This erudite Handbook will be highly informative for academics, researchers and students in agricultural economics, development studies, human geography, human rights and comparative social policy. It will also be beneficial for professionals working in public policy, NGOs and multilateral organisations who are interested in understanding food security and nutrition monitoring.

#### Contents:

Preface: The challenge and motivation informing the need for this handbook	xix
1 Introduction to public policy and food security	1
Sheryl L. Hendriks and Suresh C. Babu	
2 The origin and progress of the Sustainable Development Goals	14
Babatunde Abidoye, Selma T. Karuaihe, and Tauhidur Rahman	
3 What is food security?	24
Sheryl L. Hendriks and Suresh C. Babu	
4 Food systems and the sustainability agenda	31
Sheryl L. Hendriks	
5 An overview of Sustainable Development Goal 2: Zero hunger	40
Jannie Armstrong and Scott Drimie	
6 Where do we begin to create sustainable food systems?	50
Angela McIntyre	
7 Food security assessment methods	63
Carlo Cafiero	
8 Sustainable Development Goal 1: Ending poverty	78
Suresh C. Babu and Nandita Srivastava	
9 Approaches to assessing poverty and food security	88
Valiant O. Odhiambo	
10 Sustainable Development Goal 3: Good health and well-being	98
Suresh C. Babu and Nandita Srivastava	
11 Approaches to assessing malnutrition and its impact on food security	107
Suresh C. Babu and Joseph Tinarwo	
12 Sustainable Development Goal 4: Quality education	117
Irma Eloff	
13 Approaches to assessing the impact of education on food security	128
Wegayehu Fitawek	
14 Sustainable Development Goal 5: Gender and inequality	139
Elizabeth Mkandawire and Andrea du Toit	
15 Approaches to assessing the impact of gender inequality on food security and nutrition	150
Andrea du Toit and Elizabeth Mkandawire	
16 Sustainable Development Goal 6: Ensuring the availability and sustainable management of water and sanitation for all	161
Barbara van Koppen	
17 Approaches to assessing the impact of poor sanitation on child nutrition	170
Mousumi K. Bhattacharjee and Suresh C. Babu	
18 Sustainable Development Goal 7: Affordable and clean energy	181
Alisher Mirzabaev and Qiu Chen	
19 Assessing the economics of fuel for food: Approaches to	

assessment of time allocations for household chores and roles 190  
S.N. Gajanan and Suresh C. Babu

20 Sustainable Development Goal 8: Decent work and economic growth 200  
Clement K. Kyei

21 Approaches to analysing labour productivity in agriculture and food systems 210  
John M. Ulimwengu, Sunday P. Odjo and Lea Magne-Domgho

22 Sustainable Development Goal 9: Industry, innovation and infrastructure 219  
Shweta Sinha, Sukoluhle Mazwane, Moraka N. Makhura and Andrea du Toit

23 Digital agrifood ecosystems: Digital platforms for inclusive, efficient, sustainable food systems to achieve food security 229  
Athula Ginige, Lasanthi N.C. de Silva and Ganganee C. Samaraweera

24 Sustainable Development Goal 10: Reduce Inequality within and among countries 242  
Wegayehu Fitawek and Sheryl L. Hendriks

25 Assessing the impact of inequality on food security 255  
Wegayehu Fitawek and Sheryl L. Hendriks

26 Sustainable Development Goal 11: Make cities inclusive, safe, resilient, and sustainable 263  
Lilian Nkengla-Asi, María del Rosario Castro Bernardini, Marc J. Cohen, Laté Lawson-Lartego, and Kristin Coates

27 Approaches to population estimations and their use in food policy analysis in urban settings 276  
S.J. Balaji and Suresh C. Babu

28 Sustainable Development Goal 12 : Sustainable consumption and production patterns 284  
Olivia Sylvester

29 Empirical approaches to assess impacts of food loss and waste on food systems' productivity and sustainability 294  
Lerato Phali, Mancoba Mndzebele, Pamela Madududu and Prisca Atieno

30 Sustainable Development Goal 13: Urgent action to combat climate change and its impacts 306  
Enoch Owusu-Sekyere, Yong S. Nyam, Obakeng T. Selelo and Dora A. Torsu

31 Approaches to evaluating the impact of climate change on food security 317  
Enoch Owusu-Sekyere

32 Sustainable Development Goal 14: Life below water 328  
Prisca Atieno and Sheryl L. Hendriks

33 Empirical approaches for estimating impacts of life below water on food system productivity and sustainability 339  
Prisca Atieno and Pamela Madududu

34 Sustainable Development Goal 15: Life on land 349  
Wegayehu Fitawek and Sheryl L. Hendriks

35 Measuring the impact of life on land on food system productivity and sustainability 360  
Pamela Madududu and Yetunde Olugbade

36 Sustainable Development Goal 16: Peace, justice and strong

institutions 371

James S. Mukombwe, Andrea du Toit and Sheryl Hendriks

37 Approaches to assessing the impact of conflict, injustice and weak institutions on food security and nutrition 381

James S Mukombwe and Andrea du Toit

38 Sustainable Development Goal 17: Partnerships for the goals 389

Moraka N. Makhura

39 Mutual Accountability for Food Security and Sustainable Development 401

James F. Oehmke, Biniam Iyob, Nathan Kline, and Billy Hall

40 Epilogue: The significant role of public policy analysis and evidence in informing policy change and informing our future 419

Sheryl L. Hendriks and Suresh C. Babu
