Corrigendum

Corrigendum to “Clinical manifestations and outcomes of human mpox infection from 1970 to 2023: A systematic literature review” [Clin. Infect. Pract. 24 (2024) 100397]

Chukwuyem Abejegah^{a,b,c}, Kennedy O. Obohwemu^{d,e}, Mselenge Mdegela^{a,f,*}

^a Department of Public Health, University of Sunderland, United Kingdom

^b DPhil Fellow, Pandemic Sciences Institute, Nuffield Department of Clinical Medicine, University of Oxford, United Kingdom

^c Federal Medical Centre, Infection Control and Research Centre, Community Health Department, Owo, Ondo State, Nigeria

^d Department of Health, Wellbeing and Social Care, Global Banking School/Oxford Brookes University, Birmingham, United Kingdom

^e PENKUP Research Institute, Birmingham, United Kingdom

^f Department of Public Health, School of Human Sciences, University of Greenwich, London, United Kingdom

The authors regret, **FUNDING:** This report is independent research by the UK Public Health Rapid Support Team, funded by the National Institute for Health Research (NIHR grant reference IS-RRT-1015-001). This research is also supported by UK Aid from the Department of Health and Social Care and is jointly run by the UK Health Security Agency and the London School of Hygiene & Tropical Medicine. The views expressed

in this publication are those of the author(s) and not necessarily those of the NHS, the NIHR or the Department of Health and Social Care. **ACKNOWLEDGEMENTS:** Special gratitude to the University of Oxford for their unwavering support, without which this research would not have been published.

The authors would like to apologise for any inconvenience caused.
