8 July 2012

This report was commissioned by the European Commission (DG AIDCO) under Service contract 2010/236-444, “Online database to facilitate Partnerships for Capacity Development in the ACP Water and Sanitation Sector”. For more information see [www.acp-eu-waterpartnerships.org](http://www.acp-eu-waterpartnerships.org).

Table 1.	Summary profile of successful applications .....	4
Table 2.	Prior experience of successful applicants .....	14
Table 3.	Prior experience of ACP implementing partners.....	16
Table 4.	Prior experience of ACP beneficiary partners .....	16
Table 5.	Prior collaboration between ACP beneficiary partners and successful applicants .....	18
Table 6.	Civil society involvement.....	21
Table 7.	South-South component of approved partnerships .....	22

## Introduction

This first annex to the study on “ACP-EU Water Facility – Partnerships Initiative” contains tables in support of Section 4. ACP-EU Water Partnerships: Overview of selected applications. Table 1 offers a summary profile of the 32 selected applications, indicating who the beneficiary partners are, as well as the applicant, implementing partners or associates and supporting partners. For all partners, the type of actor (e.g. water and sanitation utility, other water sector organisation) is specified together with their nationality. The table also indicates the amount granted by the European Commission (subject to revision upon negotiation with the applicants), the duration of the action (in months) and objectives of the partnership. The first column indicates the ID number of all projects, from 1 to 32. This ID number is often referred to in other tables to identify the partnership in question.

Table 2 contains information on the prior experience of successful applicants with not-for-profit partnerships for capacity development in ACP countries. The table lists all the successful applicants by nationality, indicates the type of actor, if they had prior experience, followed by details of the successful applicant’s prior experience. Table 3 shows whether ACP implementing partners participating in successful applications had prior experience of participation in not-for-profit capacity development initiatives in ACP countries. The table lists all the ACP implementing partners by nationality, indicates the type of actor, if they had prior experience, followed by details on the ACP implementing partner’s prior experience. For both Table 2 and 3, Y means Evidence of experience in ACP countries, YO means Evidence of experience outside ACP countries, N means No prior experience. Table 4 shows whether ACP beneficiary partners participating in successful applications had prior experience of participation in not-for-profit capacity development initiatives (whereby Y means Yes, N means No). Table 5 shows whether ACP beneficiary partners participating in successful applications have a history of prior collaboration in not-for-profit capacity development initiatives with the successful applicants (whereby Y means Yes, there has been prior collaboration; N means No prior collaboration).

Tables 2-5 combined show that five out of 22 successful applicants, and at least 33 out of 81 ACP beneficiary partners, had no prior experience of participation in such partnerships. More precisely, Table 4 shows that out of 81 ACP beneficiary partners, 43 had prior experience of participation in not-for-profit capacity development initiatives; 33 had no prior experience of participation in not-for-profit capacity development initiatives; while for the remaining 5 we could not establish whether they had such prior experience. Table 5 shows that out of the 85 relationships between beneficiary partners and successful applicants, there are 55 cases of no history of prior collaboration, 25 cases of prior collaboration. For the remaining 5 cases, we could not establish whether there had been such prior history.

Table 6 shows the extent to which Non State Actors (NSA) from ACP and EU countries are involved as supporting partners in the 32 selected ACP-EU Water Partnerships. The table lists all NSA who participate as supporting partners in successful applications and indicates their nationality, whether they are ACP or EU NSAs, the countries benefiting from the projects which they support, and the ID number of the respective projects. The table shows that out of 31 NSAs, 18 are ACP NSAs (half of which are evenly distributed among Ghana, Suriname and Tanzania), while the remaining 13 are EU NSAs (7 of which are Italian).

Table 7 shows the South-South capacity transfer component of successful applications. The South-South component is defined as the participation of any ACP actor as successful applicant or implementing partner. The table indicates the number of projects participated as, respectively, successful applicant and implementing partner, the countries benefitted by the projects and the ID number of the projects in question. For the purposes of this exercise, participation as associate or supporting partner is not considered as participating in the transfer of capacity and therefore does not count as contributing to the South-South component. The table shows that no ACP actor is among the successful applicants. The South-South component is limited to participation of ACP actors as implementing partner in 5 projects.

## Acronyms

Ass: Associate

k: '000

LA: Local Authority

mm: months

mn: million

NG: National Government

NSA: Non State Actor

NRW: Non-Revenue Water

UFW: Unaccounted-For Water

WSO: Other Water Sector Organisation

WU: Water and Sanitation Utility

**Table 1. Summary profile of successful applications**

No	Beneficiary (type and nationality)	Applicant (type and nationality)	Implementing partner and/or associate (type and nationality)	Supporting partner (type and nationality)	Award (€)	Time (mm)	Objective
1	Ecole Nationale Supérieure des Travaux Publics (WSO, Cameroon)	University of Padova (WSO, Italy)	University of Venezia (WSO, Italy)	Ministry of Public Works (NG, Cameroon) Ministry of Cities (NG, Cameroon) Ministry of Water and Energy (NG, Cameroon)	1mn	60	Organisation of two Masters for students and practitioners
2	South-Western Umbrella Organisation (WSO, Uganda) Mid-Western Umbrella Organisation (WSO, Uganda) Eastern Umbrella Organisation (WSO, Uganda) Northern Umbrella Organisation (WSO, Uganda) Central Umbrella Organisation (WSO, Uganda)	International Association of Water Supply Companies in the Danube River Catchment Area (WSO, Austria)	Upper Austria Water (WSO, Austria) Vienna Waterworks (WU, Austria) Austrian Association for Gas and Water (WSO, Austria) Salzburg AG für Energie, Verkehr und Telekommunikation (WU, Austria)	Ministry of Water and Environment (NG, Uganda) NETWAS Uganda (NSA, Uganda)	610k	48	Sharing experiences within and between umbrella organisations
3	Local authority, Bié (LA, Angola) Local authority, Huambo (LA, Angola)	Indaqua (WU, Portugal)	Vista Water (WU, Angola)	Ministry of Energy & Water (NG, Angola)	890k	28	NRW reduction in two cities
4	Local authority, Bié (LA, Angola) Local authority, Benguela (LA, Angola) Local authority, Cunene (LA, Angola) Local authority, Huíla (LA, Angola) Local authority, Huambo	Indaqua (WU, Portugal)	Vista Water (WU, Angola)	Ministry of Energy & Water (NG, Angola)	987k	30	Capacity development of rural water operators

No	Beneficiary (type and nationality)	Applicant (type and nationality)	Implementing partner and/or associate (type and nationality)	Supporting partner (type and nationality)	Award (€)	Time (mm)	Objective

	Sewerage Corporation (WU, Uganda) Rift Valley Water Services Board (WU, Kenya) Energy, Water and Sanitation Authority (WU, Rwanda) DAWASCO- Dar es Salaam Water and Sewerage Corporation (WU, Tanzania) African Water Association (WSO, Ivory Coast)	for Water Education (WSO, Netherlands)	Association (WSO, UK) Amsterdam Waternet (WU, Netherlands)	International (NSA, Kenya) Rwandan NGO Forum on Water, Sanitation and Environment (NSA, Rwanda) Water Aid Tanzania (NSA, Tanzania)			performance in secondary urban centres in East Africa

**Table 2. Prior experience of successful applicants**

Nationality	Successful applicants	Y/N	Details of prior experience
Austria	International Association of Water Supply Companies in the Danube River Catchment Area (WSO)	YO	Leader: Danube Capacity Development Facility; Study on water tariffs in the Danube catchment area; Assistance with prevention of accidental pollution in Hungary and Romania. Associate: Cooperation between Vienna and Bratislava waterworks.
Belgium	Aquaplus NV (WU)	Y; YO	Drinking water, hygiene and sanitation in Bamako, Mali; Training of water operator HAYA, Oman; O&M technical assistance contract for wastewater treatment plant in Sharjah City, United Arab Emirates; Development of software and methodology for asset management in sanitation, various EU countries.
Belgium	Société Publique de Gestion de l'Eau (WU)	YO	Capacity building workshops on planning, investment and management in water and sanitation, various countries outside the ACP region.
Belgium	VIVAQUA (WU)	YO	IWRM in the Algerian coast; Capacity development of ONEP, Morocco.
France	Communauté Urbaine de Cherbourg (LA)	Y	Contribute to the achievement of the MDG target on water in Tenghory, Senegal; Contribute to the achievement of the MDG target on water in Coubalan, Senegal (I and II).
France	Office International de l'Eau (WSO)	Y; YO	Development of indicators on transboundary water management in Africa (various countries); Pan-African knowledge exchange system on regional and local water management (various countries); Assistance to the West African Water Observatory; Assistance to the establishment of a transboundary river basin agency for the Volta region; Assistance to the design and implementation of an investment programme in the Niger river basin; Twinning between river basin agencies, EU-access countries, on IWRM; Twinning with Poland on the European Water Framework Directive.
France	Réseau International des Organismes de Bassin (WSO)	Y; YO	Development of indicators on transboundary water management in Africa (various countries); Strengthen regional governance in African transboundary regions; Knowledge exchange between Mauritania and the Economic Community Of West African States on infrastructure projects; Assistance to the establishment of a transboundary river basin agency for the Volta region; Assistance to the West African Water Observatory; Assistance to the design and implementation of an investment programme in the Niger river basin; Study on the institutional reform of the High Commissariat for the Senegal river; IWRM in the Volta river basin; Twinning between river basin agencies, EU-access countries, on IWRM.
France	Syndicat Intercommunal du Centre et du Sud de la Martinique (WU)	N	-
Finland	Kangasala Municipality (LA)	Y	Partnership for improved water management in Keetmanshoop and Ondangwa, Namibia.
Germany	Hamburger Wasserwerke (WU)	Y; YO	Technical assistance to ONEA in Ouagadougou, Burkina Faso; Training of NWSC staff in Business Administration and Operation and Maintenance of Water Supply and Disposal, Kampala, Uganda; Water leakage reduction in Karak, Jordan; Operation and Management Support (OMS) for Public Water Utilities, Jordan; Knowledge transfer and on-the-job training, Middle Governorates Water Management, Jordan; Assistance to the Water Authority of Jordan with improving energy efficiency; Management consulting for the General Establishment for Drinking Water and Sewerage Aleppo, Syria; Sana'a Wastewater Treatment Plant Upgrade and

Nationality	Successful applicants	Y/N	Details of prior experience
			Rehabilitation, Yemen; Feasibility study on the expansion of the water supply network for St. Petersburg Vodokanal, Russia; Capacity development, Diyarbakir Wastewater Treatment Plant, Turkey; Capacity development, Van Wastewater Treatment Plant, Turkey; Training, Industrial Wastewater Treatment Plant Initial Operational Services, Fuyang, China.
Italy	Acque del Chiampo (WU)	N	-
Italy	Ente acque della Sardegna (WU)	YO	Knowledge exchange on sustainable water management in Tunisia and Morocco; Pilot study on renewable energy and water management in Tunisia; Capacity building on wastewater reuse for irrigation in Palestine; Assistance with industrial wastewater treatment and sustainable water use in Morocco; Drainage and sanitation in Serbia; Industrial water use in Serbia; Surface water quality in Bosnia Herzegovina; Common strategy on protection of territory in Greece and Portugal; Capacity building on IWRM and aridity.
Italy	HYDROAID (WSO)	YO	Cooperation between Italy and Brazil on IWRM; Institutional Training Programme on Water management (various countries); Project for the reuse of wastewater for irrigation purposes in Palestine.
Italy	University of Padova (WSO)	N	-
Netherlands	Amsterdam Waternet (WU)	Y; YO	Twinning cooperation Baheira Water & Drainage company, Damietta water company and Alexandria Water company, Egypt; WOP with SWM and the Ministry for Natural Resources, Suriname; WOP with Perpamsi Banten, Indonesia.
Netherlands	Dunea, Dune & Water (WU)	Y; YO	WOP with Red Sea State and Gedaref State Water Corporations, Sudan; WOP on improved performance with PDAM Kabupaten Bogor, Indonesia; WOP on improved distribution management with PDAM Bekasi, Indonesia; WOP with local utilities in Tsunami affected areas in Northern Sumatera, Indonesia; Capacity Development Project of Dunea, WMD and PWN for Nine Water Supply Companies in Aceh, Indonesia; South-South Regional Training and Capacity Development programme with Beheira Water and Drainage Company, Egypt; Design, delivery, installation setting to work and training of a distribution monitoring system in Iasi, Romania; Design, delivery, installation, setting to work and training of an intake monitoring system in Iasi, Romania.
Netherlands	PWN Water Supply Company North Holland (WU)	Y; YO	Establishment of a professional private water supply operator in Rwanda; Extension of water supply and sanitation in Yungwe-Bikore, Rwanda; Rehabilitation and extension of water supply and sanitation in Mutera, Rwanda; Twinning between Tirtanadi, PWN and Tirta Sumut, Indonesia; Capacity development project DZH-PWN/WMD with 9 water supply companies in Aceh, Indonesia.
Netherlands	Vitens-Evides International (WU)	Y; YO	Technical assistance to Nakuru Water and Sanitation Company, Kenya; Water Operators Partnership (WOP) with Ulaanbaatar Water and Sewerage Corporation, Mongolia; 2 WOPs with FIPAG, Mozambique; Partnership on improving urban sanitation in Mozambique; Pilot project on mobile sanitation systems for informal settlements in Cape Town, South Africa; Technical assistance in investment programme in drinking-water projects in Suriname; WOP with Saigon Water Supply Corporation and Ho Chi Minh City, Vietnam; WOP with Da Nang City Drinking Water Company and Da Nang municipal government, Vietnam; WOP with Ta'iz Water and Sewerage Corporation, Yemen.
Netherlands	UNESCO-IHE Institute for Water Education (WSO)	Y; YO	Water for African Cities Programme: Training and Capacity Building Component, Johannesburg, Lusaka,

Nationality	Successful applicants	Y/N	Details of prior experience
			Nairobi, Addis, Accra, Abidjah, Dakar; Training and Capacity Building within the Programme Lake Victoria Region Water and Sanitation Initiative, Kenya, Tanzania, Uganda; Enhancing institutional capacity in water and waste water treatment, South Africa; Water Sector Capacity Building in Palestine; Water and Environmental Sanitation Sector Capacity Building and Sustainable Development, Ghana; Cooperation in Sanitary and Environmental Engineering, Colombia.
Netherlands	Waterschap Reest en Wieden (WSO)	Y; YO	Institutional assistance on IWRM to Teleorman, Romania; Assistance on IWRM and sanitation to Figuig, Morocco; Improved access to water and sanitation in Benin; IWRM, planning and sustainable water and sanitation services in Haiti.
Portugal	Indaqua (WU)	N	-
Spain	Aguas de Galicia (WSO)	N	-
