

# **FPS COST Action FP1301**

*Innovative management and multifunctional utilization of traditional coppice forests – an answer to future ecological, economic and social challenges in the European forestry sector (EuroCoppice)*

## **Evolution and perspectives of coppice forests in European countries and South Africa**

*1<sup>st</sup> Edition*

**Editors: Valeriu-Norocel Nicolescu, Patrick Pyttel and Debbie Bartlett**

**Editura Universităţii Transilvania din Braşov  
2015**

Additional support towards FP1301  
*EuroCoppice* kindly provided by the  
**EVA MAYR-STIHL  
STIFTUNG**

COST is supported by the  
EU Framework Programme  
Horizon 2020

## Acknowledgement

COST (European Cooperation in Science and Technology) is a pan-European intergovernmental framework. Its mission is to enable break-through scientific and technological developments leading to new concepts and products and thereby contribute to strengthening Europe's research and innovation capacities.

It allows researchers, engineers and scholars to jointly develop their own ideas and take new initiatives across all fields of science and technology, while promoting multi- and interdisciplinary approaches. COST aims at fostering a better integration of less research intensive countries to the knowledge hubs of the European Research Area. The COST Association, an International not-for-profit Association under Belgian Law, integrates all management, governing and administrative functions necessary for the operation of the framework. The COST Association has currently 36 Member Countries. [www.cost.eu](http://www.cost.eu)
