This walking tour of Greenwich takes in various sites that are of interest from the perspective of public health, both in the past and in the present. This walk was created by students from the MSc Global Public Health and MSc Global Health Management courses at Greenwich University in collaboration with Jill Stewart and Zoe Hendon. We are grateful to NanaAma Sekyibea Appiedu-Addo, Devashri Bhowmik, Tenzing W Bhutia Shaoun Dey, and Kajal Hemraj Shinde for all their hard work.
